

The Department of Community Development Homeowner Rehabilitation Program now has repair funds available for ***very low income owner-occupants, who are 62 years of age or older.***

Community **HOME** Investment Program (CHIP) funds are available to help eleven (11) owners with comprehensive home repair. This is an excellent program for eligible owners on fixed incomes, who do not have the resources available for needed housing repairs.

If you feel that this program may be of help to you or someone you know, please contact:
