This could be a restatement of items or a table listed elsewhere in the plan or a reference to another location. It may also contain any essential items from the housing and homeless needs assessment, the housing market analysis or the strategic plan.

This Annual Plan contains a range of goals, objectives, and outcomes formulated to address needs identified for homelessness, other special needs, affordable housing, non-housing community development, barriers to affordable housing, lead-based paint hazards, institutional structure, and coordination. These objectives include:

- Continue to Plan, Monitor and Administer Entitlement Grant Programs and insure compliance with Federal Regulations.
- Improve the condition of housing for low-income homeowners.
- Support improvement of infrastructure, parks and recreation facilities, community facilities and public facilities in CDBG eligible census tracts.
- Address community needs through community-based public service programs.

These objectives are supported by a collection of associated strategies and performance goals. AP-10 Consultation – 91.100, 91.200(b), 91.215(l)

1. Introduction

Brunswick works with a wide variety of agencies, organizations, and service providers to bring various viewpoints to bear in the identification of local housing and service needs. Ongoing relationships focused on specific needs and targeted meetings designed to bring public input into the Annual Plan process are two of the ways that the City utilizes outside organizations in the consultation process.

Provide a concise summary of the jurisdiction’s activities to enhance coordination between public and assisted housing providers and private and governmental health, mental health and service agencies (91.215(l))

The City has ongoing relationships with several housing providers working on housing development activities. The City works with the Brunswick Housing Authority to utilize public housing and Section 8 voucher funding from the federal government to address the housing needs of the City's lowest income households. Through the Continuum of Care process, the City maintains relationships with mental health providers, homeless shelter and services providers, and other governmental agencies with specific responsibilities for homeless individuals and families. The City also participates in a variety of other coalitions that seek to address other issues that relate to housing and service needs.

Describe coordination with the Continuum of Care and efforts to address the needs of homeless persons (particularly chronically homeless individuals and families, families with children, veterans, and unaccompanied youth) and persons at risk of homelessness.

City staff works actively with the Georgia Balance of State Continuum of Care, the umbrella for the development of the Continuum of Care for the smaller cities in the state. Staff participate in regularly scheduled meetings and point-in-time surveys. In the past, the City has provided administrative support to supplement Continuum of Care initiatives and funding to the various agencies that make up the local membership of the Georgia Balance of State Continuum of Care.

Describe consultation with the Continuum(s) of Care that serves the jurisdiction's area in determining how to allocate ESG funds, develop performance standards for and evaluate outcomes of projects and activities assisted by ESG funds, and develop funding, policies and procedures for the operation and administration of HMIS

Staff from Brunswick participates in the development of the Continuum of Care, working with area service providers to include City resources, to the extent possible, in the provision of services to homeless individuals and families in Brunswick.

AP-50 Geographic Distribution – 91.220(f)

Description of the geographic areas of the entitlement (including areas of low-income and minority concentration) where assistance will be directed

Much of the funding from the CDBG program is available for use in any of the CDBG neighborhoods or citywide, depending on the specifics of the designated activities. Also, some funding is available according to individual benefit rather than area benefit. It is, therefore, difficult to provide reasonable projections of the distribution of funds by target area. The numbers below are strictly estimates based on experience.

Geographic Distribution

Target Area	Percentage of Funds
Citywide	71
CDBG Eligible Areas	29

Table 7 - Geographic Distribution

Rationale for the priorities for allocating investments geographically

The proposed allocation of funds is based on federal funding requirements for each formula-allocated grant. Areas of low to moderate-income concentration and certain areas of high minority concentration are targeted. Areas of low homeownership and deteriorating housing conditions were also considered in the targeting process.

Discussion

The distribution of funds by target area is projected to be primarily citywide due to use of funds for administrative, non-profit support, and individual benefit-oriented programmatic uses of the funds. The remaining funds are estimated to be spread through smaller CDBG-eligible areas.

AP-65 Homeless and Other Special Needs Activities – 91.220(i)

Introduction

The City of Brunswick is active in the Georgia Balance of State Continuum of Care, addressing issues related to homeless in the region. Funding for homeless projects and services are sources primarily through that process.

Describe the jurisdictions one-year goals and actions for reducing and ending homelessness including

Reaching out to homeless persons (especially unsheltered persons) and assessing their individual needs

The Georgia Balance of State Continuum of Care, the coalition of homeless service agencies, conducts annual surveys of homeless individuals, including unsheltered persons. These surveys serve to help focus agency activities for the coming year, as well as provide documentation in response to HUD program requirements.

Addressing the emergency shelter and transitional housing needs of homeless persons

The City of Brunswick has no plans that would affect the emergency shelter or transitional housing needs of homeless persons in the coming year.

Helping homeless persons (especially chronically homeless individuals and families, families with children, veterans and their families, and unaccompanied youth) make the transition to permanent housing and independent living, including shortening the period of time that individuals and families experience homelessness, facilitating access for homeless individuals and families to affordable housing units, and preventing individuals and families who were recently homeless from becoming homeless again

The City of Brunswick has no plans that would help homeless persons transition to permanent housing and independent living in the coming year.

Helping low-income individuals and families avoid becoming homeless, especially extremely low-income individuals and families and those who are: being discharged from publicly funded institutions and systems of care (such as health care facilities, mental health facilities, foster care and other youth facilities, and corrections programs and institutions); or, receiving assistance from public or private agencies that address housing, health, social services, employment, education, or youth needs.

Homeless prevention is a major focus of the participants in the Continuum of Care. Agencies include homeless prevention as a support program in conjunction with the provision of shelter and other support services.

AP-85 Other Actions – 91.220(k)

Introduction

The City currently provides a variety of services to the residents of Brunswick, some funded by CDBG allocations, with private, State, and City funding bringing additional assets to bear on these problems. Below are some of the actions currently performed by the City or under consideration for the future.

Actions planned to address obstacles to meeting underserved needs

The City will continue to look for new funding sources for programs to address underserved needs. Funding is the major obstacle in providing the services needed to focus on the vast variety of issues that prevent families from breaking out of poverty and from living in the best, most affordable housing possible.

Actions planned to foster and maintain affordable housing

The City will consider providing financial assistance for Tax Credit Projects for affordable housing development to expand multi-family rental development projects and homeownership opportunities when those projects are present for review. Additionally, acquisition, soft costs and site development funds will be used for affordable housing development.

Actions planned to reduce lead-based paint hazards

The Health Department will continue screening for lead in children who are at risk. The City will continue its lead-based paint hazard education and testing elements of its homeowner rehabilitation program.

Actions planned to reduce the number of poverty-level families

The City will continue its efforts in conjunction with the Continuum of Care to reduce the number of poverty-level families through the development of services needed to assist those families with educational opportunities, job growth, and life skills training through the various social service agencies operating in the city.

Actions planned to develop institutional structure

- Work with non-profit organizations to address community needs and provide support to federal and non-federal funding initiatives.
- Work with private industry to address important issues that hamper housing and community development efforts. Identify opportunities to create private/public partnerships for project finance and development to leverage federal funds.

Actions planned to enhance coordination between public and private housing and social service agencies

The City will continue to coordinate planning activities with private housing and social service agencies, including participation in the Georgia Balance of State Continuum of Care meetings, development of the Continuum of Care, and enumeration of point-in-time and homeless surveys. City staff will also continue its participation in other coalitions and study groups as the opportunity arises.

Discussion

These actions are primarily the continuation of what the City is currently doing in the various areas. No major obstacles in the institutional structure have been identified that need to be addressed. The City is also satisfied with its efforts to coordinate with private housing and social service agencies.
